Dear Friends,

It is with great pleasure I have the chance to invite you to meet my friend and champion for both women and life sciences in the U.S. Congress, Diana de Gette.

As our SALSS 2014 keynote speaker, nobel laureate Dr. Peter Agre points out, there should be many more scientists in our government and although Diana is a lawyer by training, she has taken several important life science issues to her heart, including the legislation on stem cell research. She has been a very popular guest at SALSS and Karolinska Institutet in Stockholm and has become a role model for many of our young Best & Brightest women, both in Sweden and here in New York. I believe you can understand my great joy and pride to be able to invite a few of you to join us May 24th in the evening around 6.30 pm in NYC. This event is being generously hosted at the home of Pamela Church at 300 C.P.W. Please see the attached invitation for details. If you have any questions just let me know!

Hope to see you Thursday!

Meanwhile, Happy Easter/Glad Påsk!

Best,

BE
