Importance: Normal

Jeffrey,
Below is outdoor speaker options,. I consulted with "Dobbs Stanford", outdoor concert specialists,.
JBL speaker offers an enclosure called WRX line for Extreme Weather applications, they use the JBL VRX outdoor concert speaker line and offer the option to upgrade enclosure to WRX protection,.
Approx cost for WRX speaker enclosure is \$1,500 pre speaker plus cost of jBL weather resistant speaker,.
Dobbs Stanford informed that speakers listed below are used on Cruise Ship outdoor concert application, to demonstrate the durability.
These are box style for stacking, two way and three way speaker choices, Dobbs recommends two Subs located under each speaker stack..

I'm sure I can locate lower cost speakers, but feel after a year on LSJ they will be deteriorated.

Your thoughts?

Thx
Larry

Subject: Re: JBL outdoor speakers WRX

Hi Larry,

It was nice speaking with you earlier. Here are the speaker options I recommend:

AM7315/95-WRX \$5159.00

<http://www.jblpro.com/catalog/general/Product.aspx?Pid=409&Mid=2>

AM7215/95-WRX \$4095.00

<http://www.jblpro.com/catalog/general/Product.aspx?Pid=322&Mid=2>

AM7212/95-WRX \$3791.00

<http://www.jblpro.com/catalog/general/Product.aspx?Pid=317&Mid=2>

And subs:

ASB7118-WRX \$5061.00

<http://www.jblpro.com/catalog/general/Product.aspx?Pid=299&Mid=2>

ASB6118-WRX \$3339.00

<http://www.jblpro.com/catalog/general/Product.aspx?Pid=170&Mid=2>

ASB6115-WRX \$3087.00

<http://www.jblpro.com/catalog/general/Product.aspx?Pid=297&Mid=2>

I recommend the top speaker with the top sub, 2nd with 2nd, and bottom speaker with the bottom sub. The 1st option would give your client the best performance, and then other two are more cost conscious options.

Here are two dealer in Palm Beach County that are authorized to order WRX product:

Peerson Audio
561-832-1921
Jupiter, FL
Contact Steele Cooper or Allen Peerson

T&T Productions
954-401-3589
Jupiter, FL
Contact Tony Azzara

Please feel free to contact me with any further questions.

Best Regards,

Erik

Subject: JBL outdoor speakers WRX

Hello Erik,

I am looking to purchase JBL WRX line array speakers for outdoor use. Can you call me at your leisure to discuss how to order this type of custom speaker line?

I will be shipping these speakers to a Private Island in St Thomas USVI for personal outdoor live concert application. We are looking for at least a pair of 8 to 10 foot tall outdoor speakers that can handle the elements of St Thomas environment. I will have the speakers protected from direct rain and sun, I heard the WRX line is a good fit, just need pricing and your recommendations if this is the right speaker for my application.

Best Regards,
Larry Visoski
