We are working with a consultant to upgrade our accounting system, which is currently Quickbooks. So we are seeing a wide variety.

Our approach is mostly the following: "We like our presentations. How can we automate them?"

I think you are saying the same thing on the second point. Are you also saying that you think the presentation formats can be improved? If so, it would be helpful to know which ones, so we can get examples of alternative styles. We have numerous formats for various types of reports.
