Friday – 29th of October 2010

3:00 pm / Weather Advisory : Tropical Storm Tomas (center- south and east of Barbados , moving west , northwest)

Wind and Rain began approx 6:30 pm on Friday and continued thru Early Sunday morning

Results @ Apes Hill Club as of Sunday – 31st of October 2010

Accumulated Rainfall : 11 + inches
 Wind Gusts : 70 + mph max
 Power : not available (I am sending this message from PSC , generator support)
 Water : not available
 Phone: very limited

Damage @ Apes Hill Club :

% Extensive tree damage , including a percentage of total loss re : recently planted trees - estimated to be approx 20

Villas . Tree loss / damage at public road adjacent to polo , at entry , thru the gully entry road , around Springhouse , at

NO Structural Damage observed , No Damage to the golf course greens .

Golf Course :

Tree damage and loss of approx 20 % of the newly planted trees , Front Nine – no real issues ,, Back Nine - select trees on right side of 13 , blocking path

Palms throughout the course faired very well , newly planted species did not

All Drainage functioned very well , no issues .

Clearing and clean-up process underway , will have access to Springhouse cleared and passable by Monday a.m..

Springhouse – Office general area – cleaned-up , by Monday a.m.

Villa area , and Front nine of golf course : by Tuesday am (front nine open , if needed)

Back Nine should be open for play by Friday at the latest .

Power and Domestic Water ----- we rely on others

Overall , it could be a lot worse , most important – no serious injuries or loss of life reported --- to my knowledge .

Most visitors will not know , 30 days from today , what we have just experienced .

Will send pictures in the coming days

Regards,

Greg Abadie
