To Whom It May Concern:

Greetings, My name is Igala D. Joseph, I am responding to the posting in the V.I. Daily News Classifieds, seeking a Landscape Grounds Manager.

I am from St. Thomas U.S. Virgin Islands, however I have recently returned from Hawaii where I lived and studied Agriculture and Business Administration for the past several years. I graduated from The University of Hawaii with degrees in Agriculture and Business. I have recently, within the last year, moved home, I have been working with a family members tour business, however I am now seeking a career more inline with my education and work experience.

I have been around farming and landscaping my whole life, I have gained somewhat extensive experience professionally and academically. I am motivated and inspired by the progression of eco-friendly agricultural and socio-economic development worldwide, however I see the need for conventional methods as well. I believe plants, trees, and flowers add so much beauty and enrichment to our lives, in so many ways. I am passionate about making the world a greener place.

I have a burning desire/ goal to continue to work and grow in the Horticultural/ Landscape Industry. After reviewing the requirements in your ad, I am more than confident that I have the skills you are seeking. I am very interested to see if your company may provide the opportunity for further working knowledge and experience that I am seeking. I have attached my resume with this letter. What I desire is an interview/ opportunity to discuss how I can serve your company, and how we may mutually benefit each other.

Thank you for you consideration, I look forward to our communication.

Sincerely, and gratefully,

Igala Joseph
