

Sawyers has provided the following zBoost quote for you and JE. This would entail installing a "Cable Company Special" - Cables draped over the side of the building. We would need to drill into the Dining Room wall to penetrate for the amplifier. We would warrant the work for 6 months but it may not last that long.

(1) zBoost Residential Cellular Repeater	\$ 525
(1) Yagi Directional CDMA Antenna	\$ 125
(1) High Frequency Signal Combiner (Mounted On Roof)	\$ 250
(1) Nema 3 Weather Proof Enclosure for the Combiner on the Roof	\$ 160
(1) Sawyers' Labor for the Complete Installation	\$ 800
Complete System Installation	\$1,860
