no no no.. the person who drew this, does not understand steam rooms. please.. the bench must be up on a balcony , otherwise the steam is always only above your head, Please only use experienced people or have someone ask questions.. we will save a lot of time

Fax at home is 1 860 927 4126! All best, look at the sketches. The marble bench in the steam is like a senator's bench in Rome. We can use glass only in the main room, elsewhere we have MUST use tassos which is white marble, glass is not good in heat and unbelievably slippery. Fax me!! All best, Robert
