the steam vent is in the wrong place. you will burn your feet each time. . gary has a rough drawing. i am available to discuss, anytime.. again,, send only rough drawings and we will save time,, and they all should be dimensioned.. sorry to be a pain,, but unless the person drawing these speaks to me , with a pencil in his hand we will waste money and time.

Fax at home is 1 860 927 4126! All best, look at the sketches. The marble bench in the steam is like a senator's bench in Rome. We can use glass only in the main room, elsewhere we have MUST use tassos which is white marble, glass is not good in heat and unbelievably slippery. Fax me!! All best, Robert
