On my way to airport. Land a bit before noon, back tonight at 11pm.

If you want diagonal, then we can try a 3'4" square grid with pebbles instead of grout. Then there is minimum design. Planters on a parking is guaranteed disasters... They always wind up broken.

yes i did,, You need to either be on site, or work with a photo. , we might need to add planters. I have tried to do this from a distance , it does not work. the new sketches are appreciated. however i dont think they work . maybe we need a diagonal,, there is a opening to the beach at the end of the path , and these sketches focus your attention on that,, the opening is not in the drawing therefore misleading. when will you have an hour or two .?
