Importance: Normal

Hahaha! Jeffrey, friends don't become enemies if they hold different beliefs :) Jeffrey hates Dite for her opinion :)

and I don't think that I am right but it works for me and I still believe in it. I listen and I am open for new information and if that information will change my beliefs I don't mind.

dite, pepto bismol, has saved millions of lives. saved lives. the side effect was staying alive.. Dite, I am willing to advise you, guide you, help you, if you want. IF it is more important for you to "be right", then really learn something useful and new, I completely understand, You are your own person with your own tightly held beliefs and you have done a remarkably good job of getting what you want.. I remain your friend jeffrey

you are too smart to believe that what is good for you, a twenty two year old healthy girl, with wonderful genes. has any benefit for someone less fortunate.. Dite, medicine and Health are serious fields, they do not and cannot and should not be related to your personal beliefs. or your personal health. I encourage you to learn real things. university classes. that offer recognized degrees. as opposed to magical, belief sgrounded in nothing more than your own personal experience and folk law. Spending time in the lab is the result of a desire to work really hard to help people. Polio small pox, dysentery were not cured or helped by hundreds of people over hundreds of years, these terrible disease were only cured by western medicine in a laboratory, with real results that can be duplicated,

How many side effects has this pepto bismol... You heal one place in our body, but destroy little by little others... At least than you are busy healing yourself all the time... And pharmacists make good money :) All the pains is for the reason I think. you ate bad- next day you will have headache, you have cramps on your period- deal with it, because mother nature is preparing you for labor!!! And here everybody is crazy about all pills! I am not a genius that spends hours in laboratory but I listen to my body.

I prefer talking on the phone than emails. (old recipe?), Please read all about double blind studies, and what it means for rational thinking. Also the difference between cause and coincidence. I feel sad when people like Richard and his Wife Corey, tell me I am being careless, by not taking the time to explain things

to you. They thought you were charming, and pretty , but would always be at a disadvantage , by not taking the time to learn real things as opposed to eastern europe superstitions masquarading as facts . They tortured me, with the idea that young women of your age , could still be confused about things that make you feel good , and things that cure disease. prayer, homeopathy, foot cleansing, energy work, have been with us for thousands of years, not one of those has the same power as pepto bismol. the drug store cheap solution to digestive issues.for example
