The scientists and press. None of the usual Billionaires Dinner crowd. Just as well because this is the real deal science-wise, and "The Moral Nine" are going to throw off a lot of heat.

SPEAKERS

Roy Baumeister, Paul Bloom, Joshua D. Greene, Jonathan Haidt, Sam Harris, Marc D. Hauser, Josua Knoke, Elizabeth Phelps, David Pizarro

PRESS

Confirmed to date are David Brooks, New York Times; Drake Bennett, Boston Globe; Daniel Engber, Slate, Gary Stix, Scientific American, Pamela Weintraub, Discover. Otherwise, Larry has been making noises but nothing for anyone to plan on. He and Sergey show up or they don't who up and it's about 60-40 so far but I won't know in advance (and they won't have reservations if they do).
