if anything , jim miller letter details many reasons why the scholarship is difficult to determine. however it works both ways.. if you can't say they are good by the numbers publications,, as i have said from the start , how do you know that their work is of any quality whatsoever. therefore i asked for the bayesian sample of scholars already rescued to see if the criteria was appropriate, so far , there is no indication that it is. in additino in the future IF you are going to save important tranches of info for the worlds level of intelligence(your term) . medieval history of iran , is probably not on anyones hit parade. so i would like all the details on your iranian and his competitors for your funds.

Hi Henry,

I promised Daniela that I would get you the attached information by the close of business today; and therefore, here it is.

Thank goodness that the "SRF business" closes late!

Best,

Jim
