Subject: SCHOLAR PUBLICATIONS

Dear Henry,

Below, for your interest, please find information that SRF has received **just in the last week** from five current scholar-grantees (or their hosts) about published works (in one case a conference presentation).

Best,

Jim

BELA 007- Attached is Dmitri Lopotko's latest publication (see pdf NT_theranostics) related to his nontechnology research. Additionally, here is a related article: Rice physicists kill cancer with 'nanobubbles' http://www.nanotech-now.com/news.cgi?story_id=36616 Page 10 under acknowledgments includes IIE/SRF.

Here are other variations.

<http://www.nanowerk.com/spotlight/spotid=14603.php>

<http://www.media.rice.edu/media/NewsBot.asp?MODE=VIEW&ID=13693&SnID=484351707>

IIE SRF is recognized as funder of the work.

PALE 043 – A mathematical physics scholar on fellowship at Southern Illinois University at Carbondale. His article was noted as one of the top 20 downloads for mathematical physics articles in December. Here is a link to the website mention:

http://scitation.aip.org/dbt/most_downloaded.jsp?KEY=JMAPAQ&agg=md

BELA 026 – A Belarusian scholar of media studies currently hosted at Stanford University will be giving a lecture at the 34th annual conference of Russian, Eastern European, and Eurasian Studies. The talk is entitled: "Contemporary Politics, Memory of the Great Patriotic War, and the Media in Belarus"

An announcement to the talk can be found here: <http://creees.stanford.edu/events/stanford-berkeley-2010.html>

ERIT 017- Currently on fellowship at the W.E.B. Dubois Institute at Harvard University, this SRF legal scholar published an article entitled "Adaptation policies in Africa: Challenges and opportunities in the application of tools and methods on climate change," in the book *Environmental Governance and Climate Change in Africa: Legal Perspectives* (ISS Monograph 167 ISBN 978-1-920114-91-6). The full monograph can be downloaded here: <http://www.iss.org.za/pgcontent.php?UID=29763>. A copy of the publication is also attached.

IRAQ 244- Since starting his fellowship, Professor Akeel Yasseen Al-Kufi has had two publications that have both been accepted in peer review journals.

Pierscionek, BK. Li, Y.B., Yasseen, A, Colhoun LM, Schachar, R.A, and Chen, W. Nanoceria have no Genotoxic Effect on Human Lens Epithelial Cells. *Nanotechnology* 21, 035102 (2010)

Pierscionek, BK., Keenan, J., Yasseen, A., Colhoun, LM., Li, Y.B., Schachar, R.A. and Chen, W. CeO₂ nanoparticles have no detrimental effect on eye lens proteins. *Current Analytical Chemistry*, (in press)

His host told us that "we are the first group in the world who may have found a nanoparticle that could help with treating cataract non-surgically and this would be of great help to Iraq"
