Ok!! Difficult with sketches and sending never clear! Will massage!  
Isn't the plan wirth the columns better?  
We can open other windows!

robert thanks for your ideas.. we should save a great deal of time , if instead of finished concepts , you give me a rough sketch. to be played with,, the living room always will be closed for air.. it is too damp to sit inside with doors open. the tub needs work ,,lets speak , pencil drawings , like you did on the car on 3rd avenue, more of a help. the tub should be more luscious,, plants soft romantic . i love the hamman ceiling , but not there. it should be the ceiling of the five palms room. also i need images,, magazine photos. anything, dont spend two minutes detailing the cornices until we have an idea. lets speak tomorrow

OK so here is the floorplan for the "living room" as you see it can be really closed in and open if you want, than the plan and elevations for the tub and a little rendering of the area, please disregard the color it signifies only that the molded cement tub corner walls and dome would be tinted, the circles you see in the dome are the Hammam lights, they are amber colored glass and the light comes through filtered and colored.

All are ideas to be changed massaged and molded....

The booster for which I thank you much is not reaching in my office!! Unreal.

Robert,

Here is the living room and tub alcove pdf.
