Re: Epstein / Interview of Juli Figiel re [REDACTED].
File: 8577R

On July 31, 2009 Investigator Robert Myers interviewed Juli Figiel regarding [REDACTED]. Figiel's name was obtained from [REDACTED] Face Book site. The interview was conducted by telephone as Figiel was responding to a business card left for her with her sister by Myers. The address where Figiel is living and where the card was left is [REDACTED]. Figiel called from number [REDACTED]. Myers introduced himself and explained why Figiel was being contacted. Figiel remembered [REDACTED] and somewhat reluctantly agreed to be interviewed.

According to Figiel she met [REDACTED] in 2005, her last year in Royal Palm Beach High School, where she and [REDACTED] attended. Figiel stated she and [REDACTED] were not close, would just say "Hi" to each other and she never "hung out" with [REDACTED]. Figiel added since graduation the only contact she has had with [REDACTED] was on [REDACTED] Face Book site.

Regarding [REDACTED] truthfulness Figiel stated as far as she knows [REDACTED] is truthful and was truthful with her. Figiel could not recall [REDACTED] lying or making any false statements. Figiel denied any knowledge of any drug or alcohol use by [REDACTED]. Figiel denied any knowledge of any illegal or immoral behavior by [REDACTED]. Figiel denied knowing any of [REDACTED] family or of any issues affecting them.

When asked about [REDACTED] becoming sexually active Figiel stated [REDACTED] was not sexually active as far as she knows and [REDACTED] had a very good reputation in school.

At this point in the interview Figiel became somewhat upset and questioned why these types of questions were being asked. Figiel stated she was not comfortable answering any more question and terminated the interview.

It appears Figiel is not aware of the pending civil case and never mentioned any thing that could be related to Epstein. Figiel added at the end she really does not know [REDACTED] that well and has no knowledge what [REDACTED] has been doing in the last few years.
