## Printed Greeting Cards – Straight from the Internet

The internet isn't just for e-cards anymore. Now, you can send beautiful, **printed**, personalized holiday cards by mail to everyone on your list without ever going offline.

Here's how it works:

- 1) Go to [PigSpigot.com](#)
- 2) Pick one of our great cards from our [holiday section](#) – or [make your own](#) in seconds! Our holiday card templates will bring any family photo to life.
- 3) Add your recipients – either one at a time or upload all of them at once!
- 4) Write one message – then use our cool technology to personalize it for each recipient! (For example, it automatically addresses people by name: Dear Jane, Dear Jim, etc.)

We take care of the rest – we print the cards individually on high-quality cardstock and put them in calligraphied envelopes and send them directly to your recipients, all for one low price.

If you have any questions, call me or email me – I personally want to make sure that all of our users have a great experience with this amazing new technology.

Thanks!

Josh Stein
