Jeffrey

I put a rough estimate together for everything on the F1 plan including the two cottages for about \$4,500,000 based on a bunch of assumptions

I do this at this stage to give you the order of magnitude and give us a basis to analyze the architects fees

were the 11/3 F1 or F2 schemes close enough to your concept to have Gensler take one of them to the next level and contract? also should they be producing a schematic for the SPA to review
