---

Please help me on this. It isn't built yet. It has been bought off the plan and guy is now selling on at profit but open to negotiation. I don't know how much 5 million rials is. I can borrow money. Can you tell me what you think, bearing in mind I like the idea (and anyway have promised him that we would do this when I came out of government). thanks

pig

this is the conde de mallorca that we both like very much

it will be finishing in Janury but I know it usually takes an extra couple of months in brazil after the date they give you. So we're looking at March but before Easter definetly.

As I said the cousin of my friend said it'll get more expensive once the whole building is finished.

check the photos the agent has and my friend will be taking more tomorrow in detail.

do u?

Sr. Everson,

Segue em anexo 3 fotos que eu consegui do apto 101, observe que o 1 andar do prédio é como se fosse o 4.

Se o senhor tiver disponibilidade de ver o apto na Quarta Feira me passa um e-mail ou me liga que eu tento agendar a visita.

RUA JOANA ANGÉLICA

PROJETO  
Sérgio Couto Caldas  
ARQUITETURA

*Conde de Mallorca*  
*Rua Joana Angelica - Ipanema*  
PAVIMENTO TIPO (1º AO 5º)  
ÁREA DO PAVIMENTO= 225,39m²
