Hello Jeffrey! Do you remember [REDACTED] who came to your house from Henry with one girl?

I am writing to you to tell that I was waiting for you and lost any contacts with [REDACTED] and you. I just want to know, either you could help or not. My situation is really awful right now, the same as [REDACTED]. She even doesn't have money to make her visa and she has 12 more days to live here. I don't know how I will live here without her and the fact that she is too proud of herself and doesn't want to accept help from somebody is killing me. I was working in the cleaning company for 6 days to pay one half of our apartment. But now I am working as an intern in rental company, Henry helped me, my first week was just over and honestly, I received just 150\$!

But I am proud that I am working in such a company! I like the people who work there very much!

Jeffrey, I can't live with the thought that my parents need money from me, for me I live good, because when we are together with [REDACTED] we can laugh at all our problems and help each other to keep our mood high, but it is not enough for my parents.

Just let me know if you can help me or not, I will really appreciate it and it seems that I'm ready to help you however I can!

Best,

Alla.

P.S. If you will not answer me, the only thing to do will be to write a letter to Santa Claus (Christmas is coming soon)

I attached my photo in case if you forgot about me.
