#1. Was perfect as a starter evening.

#2. Food delicious.

#3. Need dimmer on hallway lights.

#4. Also check and see if you have dimmer for dining room lights.

#5. Table clothes and flowers ok...room for improvement. Easy to do. My fault...and I can fix.

#6. 50 seems like a good number of guests.

House filled. Not empty.

Just cozy enough. You need 54" tables with 8 chairs. The chairs were good. Perfect size.

#7. Guests. Good mix. People there who adore you. Good for a family holiday. All the children were great. Future groups could be a tad more social and chic.

#8. Overall analysis: you were totally comfortable and looked thrilled to have your life back.

#9. Available to help in the future. Maybe do a dinner for someone or something. Like a book, film, birthday...so all of the attention is not on you and it's easier to expand the guest list.

#10. Your smarts, personality and home are big draw....Bravo to you. xoxo Peggy
