Good Morning,

I finally spoke with the people at Boyson Inc.
It looks like we are back to the Commander.
Apparently they figured out a way to apply your credit, to that vessel.

They prefer that we use the Commander, rather than the General II to go to Puerto Rico.

So we have a "Tenative" date of October 7th to load in Puerto Rico.

I now must rework all the logistics to make this happen successfully each step of the way.

I will be sure to follow up with the necessary information regarding the complete details and final costs.

Thank You,

Igala Joseph
