Let's just go with the Commander on the 6th and 7th. Brice and Igala are working on digging all the holes and I think we should get all the trees on one trip and be done with it. The General II will need to run several days which opens us up to break downs etc... They are also working on all the permits for the Commander in Ponce and the bulk head here on the waterfront (Kenn Hobson said this will not be an issue).
