Jeff,

I talked with Pablos. We are good to go! Once started, one should start seeing results with a week to ten days, and then it will start completely disappearing, once the caches get dumped. We can also loose videos for you too...

We will bring other things to the top, such as good stories, which means we will have to create a web site, or other things, to put up, and push people to, if they search under any possible keywords or related names, such as Ghislaine.

It is basically the opposite of what most people do, which is to get top ratings by the search engines. So, they just do the inverse, hack some of the sites, and redirect others. I hope this will cause you a considerable amount of relief.... It will decrease the din enormously.
