Ok

This is the best we can do until tuesday

The red indicates staircases with the correct scale

The bathrooms and showers on pool level 45 are tucked under the building between the two staircases on either side of the over hang...(set back)

The cabana by the pool has a treatment room and bathroom in the rear with a private entrance from the side (landscaping in the way on this pic)

Notice the courtyard on level 52

We put in a wing stair so it does not take up space

Hope this helps
