Great!!! Was thinking of you this weekend, I was looking for you on skype.

I don't want to complain but so far I've only been in dept. Is funny that I took the salary(1400) and spent it in the first week (paying the rent, buying abonament for tube, some groceries from the supermarket and the bank overdraft I had) Am I doing something wrong? Or is just the way it is? And no way of buying new clothes even though I need since winter is coming with fast steps in london...

I can say I'm a bit patrified thinking that my boyfriend is comeing here next week, and starting a life together. I have to admit that he won't be able to take care of me in the next 2-3 years at least, so I'm kind of on my own, so I have to grow in my job and be smart about every step. So far I don't feel needed in the office, and I don't know if is because all of them are professional and don't need my oppinion, or I just don't have good ideas...anyway I'm trying to learn everyday...

There was another intern working here with me, and he left for another job before he finished his 3 months.

Any advice?

kisses

i will come there end of sept
