Tomorrow I have a meeting with the head of Virgin USA...hotel division Anthony Marino and Raul Leal
They want me to help them develop the brand and help them with the overall design management for the US hotel roll out.....
I really think the property on Spring would be perfect...can you talk to Barrett or you Brother about this....the location is perfect....this could be a great JV for you and Virgin could be the Hilton of the 21st century.
Ed Scheetz ex CEO of Morgans says this is the best hotel story since Schrage/Stark created Morgans in the late 80's

Your 20 year theory.
