Jeffrey-

Hope you are well. See attached articles on my solar deal- now I have to figure out what I am going to do- love to pick your brain.

Hope all is well and happy new year. The more I learn, the more interesting this business becomes. The university is still supplied by their Utility provider and are obligated by contract to take all of our production and we are under no obligation to provide. We are also insured against certain disruption events. I hope you will consider an investment in this management team and company. I am still trying to get down to visit and would love to catch up. Thank you

Jeffrey-

Great catching up with you and I look forward to seeing you soon. I hope this bastard Scott Rothstein of Rothstein, Rosenfeldt, Adler goes to jail for the rest of his life! You should have claims on his personal assets as well as the firms assets before anyone else. I wonder how long the FBI was investigating this scum!? I read that a prospectus circulated to investors " was offering a slice of a "largely untapped market" in settlements in multimillion-dollar employment and sexual harassment lawsuits". There could be no better evidence that you were shaken down by these predators and your publicist should have a field day with this information. Get 'em Jeffrey!

I knew you would find the combination of financial engineering, regulatory and tax based incentives that support the solar deal intriguing and potentially very lucrative. The business plans to finance, develop and own a portfolio of solar plants with a base case scenario of 30 megawatts per year over a 5 year period. The terms give a \$15mm investor a 30% equity stake in the company with a projected 37% pre-tax 25+ year IRR. The equity investor is expected to receive a priority return until full return of capital which is projected to be within three years. I have known a key member of management for 25 years and believe that the experienced team is sophisticated in the tax, finance and solar space. I have attached both the 2 page executive summary and NDA for your review and signature. Once I receive an executed NDA, I will forward to you a detailed management overview.

Full disclosure. I was hired by the company to raise the \$15mm and would receive a 5% placement fee and 5% equity stake. Look forward to hearing your thoughts and would enjoy working with you on this investment opportunity.
