Subject: FW: Engineering Help

Date: Thu, 01 Apr 2010 16:59:47 +0000

Importance: Normal

Hi Mr. Epstein To keep cost down on mechanical work that requires at least 2 men at 71 st street, and not bringing in outside contractors to do this work, I requested an engineers helper to assist me on Cleaning Painting Pressure washing the Cooling Tower system, Dismantling of All fan Systems AC-1 to AC-15, cleaning steam coils, chilled water coils all reheat zone systems and assisting me on high pressure steam repairs and cleaning up and painting all mechanical areas, as i discussed with you i would bring in a helper for \$150.00 per day for 3 days per week for about 8 weeks which = 24 days X \$150.00 per day = \$3,600.00 for this project @ \$150.00 petty cash for my helper per day. The normal Hourly Rate for outside contractors labor are \$160.00 for the 1st Hr & \$124.00 per hr after = \$1028.00 per day per man for labor for same 24 days = \$24,672.00. Please send approval to the accounting department for this project that we discussed Thanks Richard

Did JEE approve these expenses?

If so how much do you estimate it to be.

I prefer do issue a check once per week.

Thank you.
