Jeffery,

When in St. Thomas last week while meeting with Crowley shipping I was given this name as a landscape designer and thought I would pass on it to you for your review.

Please let me know if you want to pursue this any further.

Rosalee H. Gage
7811 Estate St. Peter
St. Thomas, USVI 00802-3474

Dear Mr. Hanna,

This letter is to serve as a letter of introduction. Please find my attached resume to familiarize you with my qualifications, education and work experience. I would like to tell you about myself, my accomplishments and general personality.

I am 'West Indian' by nature, having been raised and primarily educated in St. Croix, although I have a strong work ethic and professional reputation in the U.S. I have lived and worked in the Virgin Islands for several years during my career and moved away in the early 1990's for educational purposes for my children and to further my own knowledge and career. I have returned to my island home, as I have satisfied my obligations as a parent, all have graduated into their adulthood lives.

I have been in the Landscaping Industry for the lifetime of my career, although I have also had secondary positions, positions of interest to me that coincided with landscaping. I have started several businesses, including a PADI 5 star dive facility, I taught SCUBA and other adult educational courses, and re-constructed and maintained a multi-unit vacation rental property and commercial building in St. Croix, after Hurricane Hugo.

My work is known in the areas I have lived; my projects have been locally and nationally recognized and published. I have become good at what I do (I better have after 27 years!) and perform my job instinctually. I

EFTA00762466

work well with others, including my staff, as I have learned that one "gets more with honey than with vinegar", although I believe in accountability and lead by example, expecting quality performance from my employees . My personality is up-beat and positive and I perform my duties with zest, which reflects onto my team. Customer satisfaction is imperative and a customer can be the general public or a property owner. I want my concepts and talent to reflect the joy and colorfulness of life outdoors, while tantalizing one with exceptional three-dimensional living art. Large specimen plantings, along with water and fire features, low voltage lighting, garden structures and intricate stone work, are important entities in my creations. Excellence in the construction phases and perfection in ongoing maintenance are not only expected with my projects, they are instilled in my staff.

I am very interested in providing my talent and skill to Little St. James Island, either as an employee or as a consultant. As you will see on my resume, Love City Home & Gardens Center, which I co-own, is well on its way with a great team and several co-owners that can see to the continuation of business growth. I have completed duties of business development, staff training and task assignment and I am eager to administrate another project in the capacities I am qualified for.

I have professional references in the landscaping and hospitality industries that have used of my services and will speak highly of my talent and ability to get work performed professionally. My name can be 'googled' with landscaping after it and several articles on my work and reputation are featured. I will also provide professional references upon request.

Sincerely,

Rosalee H. Gage
