Yes, I made good friends with John Rozo, the program manager of the S76 at flight safety. The sim runs 16 hours a day, let me ask him when the next available sim time opening is. They have the Black Hawk, S92 and S76C++ sims., and the Piaggio turbo prop aircraft at their location., which one do you prefer to fly?

-I will ask Eric when he is planning to fedex stitching and foam samples to you.

-I am on my way to FLL boat show today.

thx,
Larry
