Jeffrey,

See web links below on Emads Email to me:

Here are three boats that are possibilities:

The \$9,000 boat is not a RIB boat, but would be a possible dive boat for igor, and would be a good match for the Mercury verado engine we have in storage in florida,

-the 25 foot Nautica rib boat that is \$28,000 asking, has good twin 115hp engines already installed, not worth removing those twin 115 engines to install the single 275hp verado,

Emad and myself will continue the search,

I just visited Eric Roth's shop to inspect the wood, I am no driving to Philly to see the S76 paint works, I will return to PBI Tuesday night,

Thanks,

Larry
