Jeffrey

I am sending you a few examples of our drawing sets

- the Spexx binder that supports one of the suites with ffe and int detailed sets as back up....the Spexx binder is what we would have for every space on your project.

Hard Rock was a series of projects within one large overview which is why I liken it to LSG...I would organize and set up your program the same way

Overall plan with sub projects and a set per the one I am sending per structure...

Included is the spa set which was part of the complex...we were responsible for all these spaces.....1200 rooms

8 town houses..14 special suites....20 other areas...bars,lounges,spa,retail etc

I also sent you the Lowell hotel which shows very rich detailing

Avalon ...this project was also very detailed and a boat project we did for an english client

All these projects have another common thread..all clients were away from NY and all projects were other parts of the country with us dealing with client and construction management,owners reps.

Please call me when you have had a chance to look over this material
