Jeffrey,

I received this photo from George, contact info for this seat manufacture, I will contact them tomorrow.
I also sent as an attachment,,,if you magnify the photo, it appears this S76 has curtains:

Larry,

Below is the seat contact, I think best to start with him on JE's thoughts. He should be able to provide excellent insights, perhaps include Eric in the call. These pictures are not of the actual seat, it is still being covered. When completed I will send you pictures.

George Reenstra
