Hey All!

This is what you get when you try to surf anything porn or Israeli! :)

DATES

Those things should come with warning labels for inexperienced eaters. In true Ramadan spirit, I thought I should break my 2 hr fast with a pack of dates... Don't try it at home, kids. It can have severe constipation repercussions...

METRO

Some brave friends tried the new metro which started running 09/09/09. How very blue-collar of them! The rails are hanging on some pillars and it more looks like a suspension bridge about to fall down.

RAMADAN

So we're back to sneaking around with water, very much like you sneak around with beer in brown paperbags in the US!

I hope you're all well!
