I have the same questions..

On 9/12/09 6:37 AM, "Jeffrey Epstein" <jeevacation@gmail.com> wrote:

you were right .I loved the books.. a great example of human phenomenology.. I admire their outputs.. the question i would like to ask is what is their internal processor . why the drive to new.? why the interaction with other humans. ( is it required for complex tasks), the sum pf tjhe parts clearly greater than the whole.
