hi j, morning, so i called again, and got someone else who i was better able to talk with,, the tents were built by one of the brothers in the RF, a living member... whose name is Mr Shahene Rhoul, at present is building a seven-staresque hotel in Dahla , Southern Morrocco. His wife is an interior designer and gets involved in creating projects for clients. She just finished with a project in France for a man who commissioned a series of tents!
