**Importance:** Normal

---

Please note there were always two pavilions on the west side for symmetry.

The pavilions were enlarged based on your your earlier comments - the one to the north houses a massage table and the other still has a shower.

We can break the symmetry of this facade if you wish, but I think that the symmetry of the westernmost block is appropriate as one will be able to see it from the water and the Palm Point.

Hope to speak with you tomorrow - I will try and call you in the morning before I teach.

regards, Hasan

the west terrace makes no sense,, it started as merely a place for a shower.. and has grown in to no shower and two areas that are similar symmetrical and strange.

Jeffrey:

Please find attached my invoice for August.

Also attached is a rendering of the Hammam from the south-west, which I think looks good.

Your reactions to the west facade sent some days ago would be appreciated.

I am not sure as to what more we can do for now - it may be best to wait until the landscape/levels, etc. have been determined by Stephen, and until we have some structural input.

Please let me know what you would like me to do.

Kind regards, Hasan
