Larry, the GV sn 592 is not going to the NBAA. My sources tell me the aircraft has a lot of gear corrosion and the aircraft is being repaired at Gulfstream SAV. The owner's agent has not mention this to me even though I have asked about the condition on several occasions. I understand the owner may also do a prebuy inspection on the aircraft as part of the marketing efforts to have a ready to go aircraft.

The owners agent just called me to say that B of A is very anxious for an offer on it. Yesterday GIII sn 552 came on the market and has B of A very concerned. See the limited data I have thus far on that aircraft. SCI Texas Funeral Services is the owner of this aircraft.

1998 GV, s/n 552 on the market, ask 23.95M, 6515 hours; HUD; 14 passenger aft galley interior, completed Oct '98; engines on RR Corporate Care.
