Ladies and gentlemen –

Even if you've never done it before, it is seriously time to start voting Republican – unless you look forward to living in a socialist country!

**THIS NOTE IS FROM AN UNKNOWN BUT KNOWLEDGEABLE SOURCE.**

Ok people. If you don't want to believe the right wing, crazy, religious conservatives, then believe what the far left liberals and the Obama administration are saying.

Maxine Waters, the "liberals liberal" SAYS IT ALL in just a few sentences.

**This clip is showing Congresswoman Maxine Waters discussing drilling for new oil reserves. She explains, in a slip of the tongue, what this whole administration's agenda is all about.**

Whoops! She let it all slip out!...

What can you say...notice the people around her.

This video clip is about as blatant as a liberal can get. What she said was accidental, and notice that it stopped her dead in her tracks for a long moment, but it was too late...

Looks like the TRUTH came out of her mouth! Notice the lady to the left trying to control her reaction to what Maxine Walters just said! Hard to lie about it when you see it for your self in her own words.

Just hope the country wakes up in the 2010 elections. Scary agenda.

Watch the attached video and you will see the intent of Obama's grand plan and it is not pretty.. But luckily, the "congress person" shifted her mouth into gear before engaging her brain and let the cat out of the bag..

I do not think it is possible for too many people to see this video, and I hope you feel the same way and will help send it along as fast as possible.

They certainly didn't waste any time. Look at GM, Chrysler and the banks. Obama's Socialist government is already taking over. Now, if they can just push Obamacare through, they will have complete control of America !
