polite goy for sure; but you misunderstand the rest; he was the guy behind my health
science curriculum and totally believes in what I do

oy vey: I was looking for a way to have someone represent my ideas to you governor; she can
do that; you wan a genius? geniuses have their own ideas: I need that like I need a hole in
my head; you want genius shrverters? I didnt promise that, nor I could I have

my goal was making a black team that could do the job, not impressing you

by the way, none of my key people would impress you; they do their jobs and they are jobs
that require thinking, not brilliance

you dont get dimitri; no surprise there; never thought you would; I introduced you because
he was curious to meet you, not because I thought you would give a damn one way or the
other; I never imagined he would need your help

I used to live in the real world; I know what smart looks like; it is short supply; I dont
expect it; you do; beats me why
