Hi Dear Jeffrey,

How have you been and how is everything with you? when are you coming back from vacation? I have been thinking about you and decided to write you a letter and talk a little bit about myself.

Thank God my exams are over...I finished both semesters with very good grades, i can't believe myself. Despite of my school

i am still debating with myself about things I want to do. Looking back to the beginning of this year, i wasn't suppose to be in the school, because my plans were different at that time, however it happened that good friend of mine who is the director of our course offered me to become her student. for that moment the idea was very interesting, i decided to try this courses and at the same time to spend time with my family until something firm comes along my way. As of today, i have a few interesting opportunities for work, study and i am at the same time very confused about which way to go. First, i have been accepted as an exchange student to the conservatory of arts in Lyon, France for 5 months as a dance major with scholarship. Second, i got really interested in pilates, because this is something similar to what i know, plus in Geneva there is one of the best schools for it in Europe. Last time i was in Geneva i had a meeting with the head of this school and discussed my options and abilities to study there. [REDACTED], knowing my limited financial, she offered me to come there for the summer course to try and see if i can continue the study and if i have a talent for it. If she sees me doing well she will employ me from September on plus will not ask much for the fee, because the cost for first certification is very expensive. All what she wants from me now, is the fee of 1500 CHF for 2 months of summer trial study where i will be able to prove myself or not. This very much interests me, but I am really having financial difficulty. I also, have an opportunity to create a show with my friend [REDACTED] prima ballerina that we could tour Europe with, because we were offered space to work in, publicity, an agent, how will be arrange the tour. Despite of all this good stuff, this is still up in the air, because everything comes to, our debates with our selves, whether we want to leave Lithuania for work in other country with other things, or stay in Lithuania and continue what we are doing here.

Above all of this, the idea of prosue dance does not give me confidence for my future, the farther i think about it the less i want to focus on it. At times i get frustrated about making my decision of my choice.

The biggest problem is that i have to make my choice as soon as possible, because I don't have anymore time...

What do you think about all this? please, give me your advice.

I wish i could visit Dana, i have spoken with her about our holiday together, but i am just really stressed at this time about making my plans for next year, plus if I decide to go to Geneva I would have to be there by July the 15th and now i to figure out how to collect the funds needed.

Jeffrey, whatever I decide can I ask a little help from you? i am really really frustrated...

I am really trying to find my way...

P.S. I am still very much thinking about our family business, but lots of things were happening at the same time, i got a little drifted to decide to develop the ideas. (every day I have more and more ideas! And i don't think they are too bad :)

Thank you so much for your patience reading my problematic letters.
Lots of love.
