hello
I saw u called me yesterday, I couldnt answer coz I was doing a casting.
Everything is ok so far I'm doing casting, haven't worked yet coz the fashion week is next week and this weekend I asked the agency to make me work with a good photographer. In rest my boyfriend is still here, was funny coz he came with me to do all the castings, and the rest of the time we went sight seeing second time after i went my mother, but was different of course.
He will leave on friday and from then I'll be alone in the flat.
next week u're out?
kiss

U are right...
I thought abot it and I will start asap.
And as soon as I get home I'll do all the blood tests to make sure everything is fine!

your medicine will take 20 weeks to work,, if you wait until sept. it won't be right until jan, then there will be no, work, and you will have to wait until april again,, i think if you are serious start your medicine immediacety and wear sunscreen or stay out of the sun,, it is up to you,, it is a choice,

if you choose to stay in the sun, instead of focusing on your career, its ok with me,, but it is you that will have to live with the conswequences of that decision. think hard
