---

Jeffrey:

This attached master plan sketch illustrates how the Hammam will sit on the site. We created large grass lawn terraces in an attempt to create order and geometry. The entire ridge top on this end of the island becomes the environment for the Hammam. Note that the earthwork mounds are very architectural in their shape near the Hammam but become more natural toward the French Cap Lookout.

I also have shown a revised 2nd beach guest house & tennis court.

Let me know what you think.
