Why don't you think about how you treat me compared to your prosties and assistants. You are cold and critical of everything I do. You roll your eyes, don't say thank you, don't kiss me, touch me and don't spend any quality time with me during the day, you constantly make snooty comments, All your jokes are about killing me or my leaving and you bringing other girls over. [REDACTED] walks in and you don't stop touching, hugging, kissing, tickling her back and lovingly calling her name. You make a point to say thank you for the stupidest things she does and then you ask me to go buy her close because she is supposedly helpful. You let your assistant buy a mansion and put her in charge of your staff while you ask me to label light switches and buy shampoo.

No kiss goodbye, no thank you when I shave your neck, no I missed you, no I am happy to see you, no movie, no ride to the office, no sex, no affection...yet you do all that with others like [REDACTED].

I can't live this way. I need a break. I can't stand you treating me with that cold attitude any longer while you are perfectly capable of being nice thoughtful and a pleasure to be around
