Jeffrey,

The Sony XBR 70" just introduced has ebay price of **\$17,199.00** weight is 160 lbs, Sony price of \$20K, Sharp 65" limited edition 120 hz **\$8,899.99** is 1,000,000,000 to 1 contrast ratio. weight 130 lbs. Sharp 65" regular, with 10,000 to 1 contrast ratio is **\$2,800.00 weight 102 lbs.**

Sony specs: <http://www.sonymstyle.com/webapp/wcs/stores/servlet/ProductDisplay?catalogId=10551&storeId=10151&langId=-1&productId=8198552921665532063#specifications>

Master Bedroom speakers:

Would you be interested in locating flush in wall speakers in master bedroom?

The Tray ceiling in master appears to be a good location and angle for speakers, Not sure if it is worth the investment to install the speakers that Nick recommends in ceiling below (see attachment).

I could look for more competitive pricing and different speakers if you would be interested in flush speakers in ceiling for home theatre in master bedroom.

Nick & Chris recommended these in wall speakers:

PMC Waffer 2 IW (In wall) Read the transmission line article, how they get such good sound from a relatively small driver. - \$2,000.00 each and would use a Left , Center, Right in the tray portion of his ceiling.

Use the PMC Waffer 1 IW for the two rears firing down above the night stands. \$1,400.00 each

See attachment for speaker specs:

Limited edition Sharp 65" \$8,899.99 ebay price

weight 130 lbs.

1,000,000,000 to 1 contrast ratio

The AQUOS Limited Edition series sets a standard for large-screen flat-panel LCD-TVs. With Full HD 1080p resolution, dramatically enhanced black level and an elegant ultra-thin design, the LC-65XS1U-S produces a breathtaking picture quality that is second to none. The Limited Edition series utilizes the next generation of Sharp's proprietary 10-bit advanced super view/black TFT panel with a dynamic contrast ratio in excess of 1,000,000:1 along with an ultra-high performance RGB-LED backlight for very deep black levels and an unprecedented 150% color gamut. In addition, the Limited Edition series includes the groundbreaking AQUOS Net feature for custom Web-based content through an Ethernet jack, as well as 120Hz fine motion enhanced for the ultimate in fast-motion image processing. All models are HDTVs with a separate AVC system with built-in ATSC/QAM/NTSC tuners and include 5 HDMI inputs and 2 HD 1080p component video inputs as well as RS-232C for control. The Limited Edition series features a stunning silver cabinet with detachable speakers.

Full HD 1080p (1920 x 1080) Resolution

for the sharpest picture possible.
