Just a HI J. Think of you and know you have your own "stuff" .  
We all do , us here too , me now a not-so-good / rotator cuff operation , seen 3 experts -  
My Big Guy B. ok - adjusting .  
Trying to look forward to this new house in N.C. and just like me , now starting to panic .  
Mixture of emotions has never been my best ; I just make it look OK . You are better at that I bet and have a  
great mindset . Respect that in you. Fun and Worry don't match with my brain.  
Hope you are managing . Let me know YES and that will be a brighter spot in my day
