Dear Jeffrey,

Hasan has asked me to send the following:

Attached are some images of the Hammam area:

We have begun to apply tile patterns to the interior elevations. Colors and patterns of the tiles are to be discussed in terms of hierarchy of spaces, passages, door openings, etc.

We have also sent you a sketch of the approach to the hammam from the pool area (through the vestibule) The question of what you want to see in front of you as you move through that space needs to be discussed. Currently it is an opening to one of the massage rooms.

We will have more images and elevations pertaining to the south façade tomorrow.

Hasan can be reached at home.

Thank you,

Andrew
