Larry I did some research on the marketing of GV sn 610. As it turns out Central Business Jets is in fact marketing the aircraft with the engine program as an "option". At a price the seller would enroll the aircraft in the program. This is what I have been told other brokers were told. Of course Tony Theis told both of the aircraft was enrolled in a power by hour program which was likely a mistake on his part. Note the add section below marked in Red.
