The young guy's visitor waited for me outside.

First, I let him walk in front of me through the jail doors but he was obviously trying to slowly get behind me so I went to use the bathroom. I stayed for 5min and when I walked out he was just standing next to his car waiting. He got into his car right after me. I just waited there for another few minutes and then he drove away. I made u- Turns on the way back. I didn't see him again.

Here is his car photo and license plate #: F849CL
