Dear Jeffrey,

Hasan has asked me to send the following.

Attached is a possible idea for the Entry as per your last email.

This new entry was better received when the bedroom courtyard was eliminated but we show you both options. Hasan greatly prefers to take the courtyard wall away (option 1)

With this new scheme, small adjustments need to be made such as the organization of the changing room as well as the circulation from the entry into the entry vestibule. This transmittal is simply to help put us on the right track as per the entry sequence.

Hasan will call you in the morning if you have had a chance to look at the following, if not he will arrange to catch up on Thursday.

Thank you,

Andrew
